Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

These Are Closing Sales Each Day.

New Tork, Oct. 12.—The undertone of the stock market became strong to-day and prices moved upward pretty consistently to the close, which was strong but dull and with gains well maintained. The dominant factor in the market was the large engagement of gold for import, the total amounting to \$2,750,000.

The dealings in stocks were not large at any time and the operations were attributed to professional operators for the most part. People's Gas was the notable example in the industrial department. The stock sold off after the opening on the presumption that yesterday's buying had sitished the demand from the shorts, but the large covering at the decline caused a renewed advance and it was lifted at one time an extreme By, closing with a net gain of 1½ points. In the railroad list Northern Pacific was in largest demand, on buying supposed to be for inside interest. But here also the large short interest played an important part in the day's advance, which represented 2½ points, with the net gain Py. Notwithstanding the notable dullness at the last the closing was strong and gains were well maintained. The failure of the money rate to respond to the operations on the stock market gave color to the supposition that they were conducted by professional operators who had supplied themselves with time loans with a view to such a contingency as the present. The call loss rate in fact was inclined to sag, the ruiling rate declining to 3 per cent, notwithstanding that loans made to-day carry over until Monday. Apparently the banks have lost during the week upward of \$5,000,000 or about as mutch as last spectary over until Monday. Apparently the banks have lost during the week upward of \$5,000,000 or about as mutch as last spectary over until Monday. NEW YORK COTTON MARKET.

New York Oct. 12.—A sharp break eccuired in the price of cotion to-day, following a disappointment in the English cables. The local market opened at a decline of 12@16 points. A partial raily at Liverpool caused a temporary upward movement after the first call here, but again the situation became unsettled under a renewed pressure of long cotton, with the bear contingent showing increasing courage and selling with a liberal hand until the net decline reached \$5\$ points as compared with the closing figures of the previous day. There was no particular amount of confidence manifested on either side of the account and in the afternoon business was scant and of a strictly local character, with the market finally steady at a net decline of 16@35 points. According to private cables the English decline was due to Neill's circular.

MAILINE NOTES.

In latitude 51 degrees, 22 minutes, and longtitude 23 degrees, 29 minutes, on October 2d, Thomas Atkinson, a fireman on the steamer Rowanmore, Captain Thomas, on her way from Liverpool to Baltimore, jumped overboard and was lost. He shipped in Liverpool; was a native of Ireland, 45 years of age, and had been drinking for several days. The Rowanmore had been three days at sea when Atkinson suicided.

That monster king of the world's sailing craft the schooner George W. Wells, is now sailing down Chesapenke Bay on her way to Portland, Maine, She took on board before leaving the cal plers at Baitimore five thousand ons of coal, the largest cargo of coal, ver floated in a schooner. The George W. Wells is in command of Captain Yrowley, and this is her mailen trip, seing a brand new ship. It is said that in the summer time this big schooner will carry larger coal cargoes than the one noted above.

The British steamship Powderham alls to-day with 3,500 tons Pocahon as oal. She is under command of Cap-ain Toms. Her cargo is valued at \$10,-90 and her destination is Iquique, louth America.
